

Trump Won

Natalie Owens

Chorus:
Trump won and you know it
Trump won and you know it
The fake News will never show it, cause it's true
Trump won and you know it

We got dead people voting
Drop boxes are inconvenient
The facts are facts
It's not just my opinion
Now Democrats are harvesting a steal
C'mon man, Here's the deal

[Chorus]

While Biden hiding in the basement
Babbling away on zoom
Patriots fill stadiums
And not circles in an empty room
Twitter and the F.B.I.....
One day they won't deny

[Chorus]

The thing about truth
Time will always tell
I bet he took New York
And carried California as well
He's done it twice before
And he's gonna win for the third time
In twenty twenty four.....

Trump won and you know it
Trump won and you know it
Fox News won't even show it, it's true

[Chorus]

I know it, you know it,
We know it, they know it
Everybody knows Trump won
I know it, you know it,
We know it, they know it
Everybody knows Trump won
I know it, you know it,
We know it, they know it
Everybody knows Trump won
